

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing the Fund. These charges reduce the potential growth of the investment.

One-off charges taken before or after you invest:

Entry charge 0.00%

Exit charge 0.00%

Charges taken from the fund over a year:

Ongoing charge 0.60%

Charges taken from the fund under specific conditions:

Performance fee none

The entry and exit charge is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Ongoing charges figure is based on expenses for the year ending 31 January 2019. This figure may vary from year to year and does not include portfolio transaction costs. Ongoing charges are the same for all investors.

The OCF reflects costs that the Fund incurs as a result of its investment in the underlying funds.

For more about charges, see the "Expenses of the Funds" section in the Prospectus (www.rlam.co.uk/Home/Individual-Investor/Fund-Performance-Prices/)

Past performance

The graph shows fund performance over the past 5 years where available. Past performance is no guarantee of future performance. The figure for a given year shows how much the Fund increased or decreased in value during that year. These results reflect ongoing charges taken from the Fund, but do not reflect any entry charges you might have to pay.

The Fund and share class were launched on 14 March 2016.

The Royal London GMAP Adventurous Fund (Accumulation - Class M Shares) in GBP

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested. The chart shows performance in British pounds after the ongoing charges and the portfolio transaction costs have been paid. Entry and exit charges are excluded from calculations of past performance.
